Budget Tracker Application Project
Project Requirements

Minimum requirements

Any items marked incomplete in this section will result in the project receiving a failing grade.

	Complete?
Add a New Entry: Users can add a new budget item (income or expense).	
Display Account Balance: Calculate and display the net balance for selected accounts or categories.	
View All Entries: Show all previous budget entries.	
Search Entries: Search for specific entries by title, date, or category.	
Generate Reports: Create financial reports based on custom parameters (ex: date range, category, account).	
Manage Accounts and Categories: Add, edit, or delete accounts and categories.	
Exit: Safely exit the application.	

Code convention and UI/UX requirements

More than three items marked incomplete in this section will result in the project receiving a failing grade.

	Complete?
The code must be well-organized and modular, with functions handling specific tasks.	
The code should follow Python best practices and be well-documented with comments where necessary.	
The terminal interface must be user-friendly and intuitive, with clear prompts and instructions.	
The application must validate user input to ensure that it is correct and within expected parameters.	
Error messages should be clear and informative, guiding users to correct their input.	

README requirements

More than two items marked incomplete in this section will result in the project receiving a failing grade.

	Complete?
The app's name.	
A brief description of your app and its functionality.	
A ***Getting started*** section. This section should include instructions on how to interact with your app.	
A ***Technologies used*** section. This section should list the principal technologies used by your application, for example, Python and any major frameworks or libraries.	
If necessary, an ***Attributions*** section. This section should include links to any external resources (such as libraries or assets) you used to develop your application that require attribution. You can exclude this section if it does not apply to your application.	

Summary

Project meets minimum requirements and passes.
